## ***TuPS5 The Changing Political and Financial Environmental and Its Implication for AIDS: Where are We Heading for?***

### ***TuPS5-01: Changing Global Architecture for AIDS***

**Professor of Politics, Director, Institute for Human Security La trobe University, Australia**

- Changing global architecture and the politics
- How do you ensure a status of goal of the international development
- Donor invest and interest is available
- The commitment of the President of US, President
- And the US remain responsible the major contributor (over half of world fund) to fight against HIV/AIDS
- Funding decline as the needs increase

### **The Problems**

- Resource are not available
- Many political people are not see HIV is important as we see it important
- Other issues-We risk sound Self center and selfish to those who concern with other issues
- Showing connection with HIV/AIDS and climate change, food and water security in many parts of the world
- If not we will be Isolated with the other parts of the world, regarding selfish group
- Peer edu:, Community Mobi:, community emp:, social work try to improve against stigmatize...
- We know the essen:, barriers of culture and political obstacles , many part of the gov are refuse to say we have MSM, refuse to the clear evidence
- Religious, culture and traditional barrier

Questions,

1. What is the purpose/outlived of UNAIDS? How UNAIDS and global interconnected.
2. The desire to convince “the prevention Science”?
3. The role of private fundind and what do they accountable for? E.g the influence of the gate foundation in the National policy need to be scrutized
4. Are AIDS conferences justified?
